PD788/PD788G

Versatile Digital Portable Two-Way Radio

As a product built to the DMR standard, PD788/788G (PD788G is the model with GPS) is endowed with ergonomic design, all-round digital functions and remarkable quality to refresh your experience and enable you to be responsive to emergent situations.

- Large-size HD Transflective Color Display
- Superior Digital Voice

Higher Efficiency Richer Experience

Product Features»

Ergonomic Design

The large-size color display allows good visibility even under extremely strong light. The globally patented industrial design and antenna design ensure convenient operation and remarkable GPS performance.

Reliable Quality

PD788/788G is strictly compliant with MIL-STD-810 C/D/E/F and IP57 standards, ensuring outstanding performance even under harsh environments.

Superior Voice

With the combined application of narrowband codec and digital error-correction technologies, PD788/788G is capable of ensuring you superior voice under noisy environments or at the edge of the coverage area. In addition, the adoption of the AGC technology also optimizes your voice. With a built-in 1W speaker, PD788/788G ensures clear and crisp voice communication.

Durable Battery

Compared with an analog radio, PD788/788G can obtain an extra 40% operation time.

Higher Spectrum Efficiency, Higher Channel Capacity

Benefiting from the TDMA technology, PD788/788G allows twice the channels based on the same spectrum resource. This is a big help to relieve the stress of increasing shortage in spectrum resource.

Dual-slot Pseudo Trunking

With this feature, the free slot can be allocated to a member that needs to communicate, effectively enhancing frequency efficiency and allowing you to communicate timely under emergent situations.

Secure Communication

Besides the intrinsic encryption of the digital technology, PD788/788G provides enhanced encryption capability (such as 256-bit encryption algorithm) and the Scrambler feature (selectable).

Versatile Services

In addition to conventional communication services, PD788/788G features rich data services and selectable functions such as Message, Scan, Emergency, Man Down (optional), Auto Registration*, High-speed Data Transmission* and Lone Worker*.

Further Development Port

The reserved port in PD788/788G allows users or any third party to further develop other helpful functions (Message, GPS, Call Control and Telemetry).

* indicates functions available in later version.

Main Functions »

Dual Modes (Analog+Digital)

PD788/788G can operate in either analog or digital mode. It is compatible with the prevalent analog system, ensuring a smooth analog-to-digital transition.

Versatile Voice Calls

Intelligent signaling of PD788/788G supports various voice call types, including Private Call, Group Call and All Call.

Vibrate

This feature is helpful in alerting you to reception of any voice or message under noisy or low-volume conditions.

GPS

PD788/788G supports viewing of GPS positioning information and sending of GPS text message.

IP Service*

PD788/788G allows multiple IP functions if connected with a PC via IP address.

Various Analog Signaling Types

PD788/788G supports various analog signaling types (HDC1200, DTMF*, 2-Tone* and 5-Tone*), providing higher function expansion capacity.

Multiple Languages

PD788/788G supports 10 languages (English, Simplified Chinese, Traditional Chinese, German, Spanish, French, Italian, Polish, Russian and Turkish), allowing you to select as per your needs.

Software Upgradable

With this capability, you can enjoy further features without buying a new machine.
